

## 6Days Northern Tanzania Scheduled Safari

**Guaranteed Scheduled Safari Departing Every Wednesday: Min 2Pax**

**6Days/5Nights Ngorongoro, Serengeti and Lake Manyara Safari**

**Accommodation in the listed hotels in the program**

**Ground Transportation using 4X4 Safari Landcruisers**

**Safari Prices are Valid from January to Dec 2019**

**Safari Overview:** This 6 days spectacular safari you will relish the real feeling of wilderness. Tanzania's greatest wildlife showpiece, the Lake Manyara's famous tree-climbing Lions and rich birdlife on day 1 then proceed to Serengeti National Park, the home of great annual wildebeest migration and golden-maned lion prides. Solitary leopards haunt the acacia trees lining the Seronera River, while a high density of cheetahs prowls the southeastern plains. Finally the Ngorongoro Crater gives you a breath-taking views and phenomenal game.

Day	Location	Supplier/Hotel	Meal Plan	Activity
Day 1	Lk Manyara	Migunga Tented Camp,	BB	Trsf + P
Day 2	Serengeti	Ikoma Tented Camp	LDBB	P
Day 3	Serengeti	Ikoma Tented Camp	LDBB	AP
Day 4	Ngorongoro	Bougainvillea Safari Lodge	LDBB	P
Day 5	Ngorongoro	Bougainvillea Safari Lodge	LDBB	P
Day 6	Departure	N/A	B	Trsf

**Key:** L-Lunch, D-Dinner, BB-Bed and breakfast, LDBB-Lunch, dinner, bed and breakfast, Trsf-Transfer, E-Early morning game drive, A-Morning game drive, P-Afternoon game drive, HDS-Half Day sightseeing, FDS-Full Day Sightseeing.

### Day 1: Arrival in Arusha and depart for Lake Manyara National Park

Meet in Arusha. After lunch drive to Lake Manyara, a soda lake lying in the Rift Valley. Game drive in Lake Manyara National Park, home of the tree-climbing lions. Apart from the varied types of landscape including jungle, swamp and savanna, there are also a large variety of animals including Giraffe, Zebra, Elephant, Gazelle, hippos, monkeys and about 400 different species of birds.

#### **Dinner and overnight in Migunga Tented Camp**

**Lake Manyara National Park:** Located 125 km west of Arusha town, on the foot of the wall of the Great Rift Valley, Lake Manyara National Park is one of the oldest and most popular sanctuaries in East Africa. The park has a large variety of habitats, making it possible to support a wealth of wildlife in its small area. The main habitats include the shallow soda lake itself which occupies 77% of the National Park total area of 330 square kilometres, the ground water forest, open grassland, acacia woodland and the rift wall. The most famous spectacle in the park is the tree-climbing lions, which are occasionally seen along branches of acacia trees. Other animals found in the park include buffalo, elephants, leopards, baboons, impala, giraffes, zebra, wildebeest, ostrich and hippos. Popularly referred to as an ornithologist's paradise, Lake Manyara National Park contains over 400 bird species found in most savanna and river habitats in East Africa. Common water birds to be seen here are pelicans, spoonbills, Egyptian geese and the migratory flamingoes, which arrive in hundreds of thousands creating one of Africa's great natural sights over the soda lake.

## **Day 2: Lake Manyara National Park to Serengeti National Park**

After breakfast depart with lunch box to Serengeti Fort Ikoma with en-route game drives in Serengeti National Park. This enormous park supports every variety of animal imaginable - from large predators such as lion, leopard and cheetah to the smaller herbivores they prey on.

### **Dinner and overnight at a lodge in Serengeti**

***Serengeti National Park:** A World Heritage Site and recently proclaimed a World Wide Wonder, Serengeti National Park is undoubtedly one of the most famous wildlife sanctuaries in the world. The park is located some 320 km to the northwest of Arusha, lying in a high plateau between the Ngorongoro highlands and the Kenya/ Tanzania border, and extending almost to Lake Victoria to the west, covering a total area of 14,763 square kilometres. Aptly named "endless plains" by the Maasai people, you immediately experience this vastness as you enter the southeastern plains of the park from Ngorongoro.*

*Declared a protected area in 1921 and gazetted as National Park in 1951 Serengeti is the oldest National Park in Tanzania. The principal features of the Serengeti are the short and long grass plains in the south and east, the acacia Savannah in the central areas, the hilly and densely wooded areas in the north and the extensive woodland in the west. There is a variety of scenery, which includes the plains, lakes, hills and the rock outcrops called kopjes. The main game drive areas in the Serengeti are the Seronera Valley, the Western Corridor, and northern Serengeti. The Seronera valley in central Serengeti, endowed with permanent surface water, attract a large concentration of wildlife throughout the year. Common animals that can be seen here are lions, buffaloes, impalas, hippos, waterbucks, elephants, cheetahs, the leopard, and over 400 species of birds. Serengeti provides sanctuary to the highest concentration of plains animals in the world.*

## **Day 3: Full day in Serengeti National Park**

Today you spend the whole day on game drive in this National Park, which is rich with all different species of animals. To maximize game viewing you will carry a picnic lunch with you and spend the full day in the Serengeti National Park.

### **Dinner and overnight at a lodge in Serengeti**

## **Day 4: Serengeti National Park to Karatu**

Breakfast drive to your lodge situated in Karatu just outside the Ngorongoro Conservation Area. The crater covers over 300 square kilometers of land and is the home of the rare black rhino, prides of lion, elephant, cheetah and great herds of buffalo, antelope and wildebeest. On the way visit Oldupai Gorge site of Louis and Mary Leakey's renowned archaeological discoveries. Their findings include some of the man's earliest known ancestral remains. Arrive for lunch at the lodge. Afternoon at leisure

### **Dinner and overnight at Bougainvillea Safari Lodge**

***Ngorongoro Crater:** A UNESCO protected World Heritage Site and an International Biosphere Reserve, the Ngorongoro Conservation Area is a pioneering experiment in multi-purpose land use where people (the Maasai), their livestock and wildlife coexist and share the same protected habitat. The craters of Ngorongoro and Empakai are reserved exclusively for wildlife, while the rest of the Conservation Area is shared by wildlife, people and livestock. The Maasai, the main residents of Ngorongoro, are pastoralists who move widely with their herds of cattle, sheep, goat and donkeys in search of pasture and water. In recent years the Maasai have been encouraged to work on the land and supplement their traditional diet of milk and meat.*

*The Ngoro Ngoro Crater, which is the central attraction in the area, is the largest Caldera in the world that has its walls intact. The Ngoro Ngoro Crater floor, a sheer drop of 610 metres below the crater rim, has an area of about 300 square kilometres, with a diameter of 19 kilometers. The sight of the Ngoro Ngoro Crater is simply stunning. "There is nothing with which to compare. It is one of the wonders of the world...." once wrote Professor Bernard Grzimek. The crater floor is home to tens of thousands of plains animals, including wildebeest, zebra, gazelles, elands, and a large predator population of lions, hyena and jackal which can all be viewed at close quarters. The rare black rhino can be viewed here, and if you are lucky you can see cheetah and leopard. The rain season is between November and May. The altitude at the crater rim is about 2286 metres above sea level, and temperatures can get quite chilly in the evening, especially between May to September.*

### **Day 5: Karatu to Ngorongoro Crater and return to Karatu for Overnight**

Today you will drive to Ngorongoro Conservation Area and descend over 600 meters to the floor of the crater for a day crater tour. Explore the forest areas that are inhabited by monkey and elephant, the lake area, where you may see the flamingos and the open savannah where the lions hunt for food. Picnic lunches will be served in the crater. Late afternoon drive back to Bougainvillea Safari Lodge for dinner and overnight

### **Day 6: Karatu to Arusha**

After breakfast drive to Arusha Lunch in a restaurant.

\*\*\*\*\*end of our services, wishing you an excellent safari\*\*\*\*\*
